

Dear UCSB Student Housing Families,

Hello, my name is Rosie Gates-Bowes and I would like to introduce myself. I am an Early Childhood Mental Health Consultant from CALM and a registered Associate Clinical Social Worker. Starting in February 2021, I will be providing support to the UCSB Student Housing families. I am looking forward to getting to know everyone that makes up the Student Housing community. I have a background in working with children and families in the school, community and therapeutic settings. I earned my Master's Degree in Social Work from Simmons University in Boston, MA. Recently, I have been providing consultation services to students, teachers and families in early childhood education centers in Santa Barbara. I also have experience providing therapeutic services to children diagnosed with Autism Spectrum Disorder and their families using a relationship-based and developmental model lens.

**In my role as a Mental Health Consultant I can offer:**

- Support with parenting questions and techniques
- Answer questions about your child's social and emotional skill development
- Schedule individual meetings to discuss your families specific needs
- Provide referrals to supporting agencies and services
- Coordination of services with other providers
- Facilitate classes for development and parent education

To submit a referral for services, schedule an appointment or request more information please contact [ucsbfish@calm4kids.org](mailto:ucsbfish@calm4kids.org).

Thank you,
